SAMEER ZUBAIR

FULL STACK DEVELOPER

Profile

Dynamic Full Stack Developer with 1 year of experience in building scalable web applications. Proficient in MongoDB, Express.js, React.js, and Node.js, delivering high-performance solutions. Skilled in JavaScript, Redux, Next.js, and React Native with strong frontend and backend expertise. Familiar with Firebase for backend services and Git/GitHub for version control. Agile practitioner with excellent problem-solving skills and a focus on user-centric design. Adept at collaborating with cross-functional teams to ensure project success. Committed to continuous learning and staying updated with modern technologies.

Work Experience

MERN STACK DEVELOPMENT |

2024 - 2025

Innovatrix Technologies

- Developed and implemented a dynamic web application using the MERN stack, ensuring high performance and scalability. Utilized MongoDB for data storage, Express.js for server-side development, React.js for front-end UI, and Node.js for server-side logic.
- Collaborated with cross-functional teams to gather requirements, design user interfaces, and implement new features.
- Optimized application performance through code refactoring, caching mechanisms, and database query optimization.
- Implemented user authentication and authorization using JWT tokens for enhanced security.
- Integrated third-party APIs and services to extend the functionality of the application.

FRONTEND DEVELOPMENT | REMOTE

2024 - 2025

Eflix Solution

- Contributed to developing web applications <https://web.getklarity.io/> using Reactjs, Nextjs, HTML5, and CSS3 with some cool libraries.
- Collaborated with cross-functional teams to gather requirements, design user interfaces, and implement new features.
- Optimized application performance and ensured code quality through testing and debugging.

Certificate

Full Stack DEVELOPMENT

July 2023 - Sep 2024
